Report launch: **The Sustainable Development Goals Report 2022** Live on [WebTV](http://webtv.un.org)

Cascading crises are putting the 2030 Agenda for Sustainable Development in grave danger, along with humanity's very own survival, according to *The Sustainable Development Goals Report 2022*. This annual SDG progress report is prepared by UN DESA, in collaboration with the entire UN Statistical System, consisting of more than 50 international and regional agencies.

Using the latest available data and estimates, the Report details the reversal of years of progress in eradicating poverty and hunger, improving health and education, providing basic services, and much more. The report highlights areas that need urgent action in order to rescue the SDGs and deliver meaningful progress for people and the planet by 2030.
